

# Reynard Corporation Launches a New Website

A user focused site with easy navigation and rich, new content for the Optics industry

Custom Optical Components

Thin Film Coatings

Standard Optical Products

Optical Fabrication

January 18, 2013 – San Clemente, CA, Reynard Corporation is pleased to announce the launch of their brand-new website. The website address, [www.reynardcorp.com](http://www.reynardcorp.com) remains the same, but has been dramatically redesigned to represent a forward thinking vision and commitment to the growing needs of its customers.

The homepage welcomes visitors with a fresh look that includes a new layout with moving images, improved navigation, and a rich color theme. The website introduces new types of digital content such as interactive graphs and an on-line catalog with expandable product details. New header and footer navigation are on every page providing shortcuts to important information such as request for quote, site search, social media links, and access to your shopping cart.

The site has been redesigned with easy navigation, so those looking for custom solutions to their optical requirements or are in need of a stock product will be able to find what they are looking for quickly. A search box is always available in the top navigation to allow customers a full site search either by products, markets, or capabilities.

Reynard Corporation's new website includes detailed information on custom optics manufacturing capabilities and the unique needs of markets we serve. Stock optical components, hardware accessories, and standard thin-film coating types are all easily accessible from the top menus. The menus also provide easy access to our exhibitions, standard tolerances, numerous press releases, customer testimonials, employment opportunities, logos, and our ISO 9001:2008 quality policy and certificate.

"The new platform allows us to quickly respond to an industry of dynamic change. It's our goal that customers find the website easy to navigate, enabling them to access important information about their optical requirements quickly and efficiently", says Randy Reynard, President of Reynard Corporation. The website is backed by the knowledgeable and friendly staff of Reynard Corporation who remains committed to serving the optics industry.

## About Reynard Corporation

Established in 1984, Reynard Corporation designs and manufactures precision thin film optical products for a global customer base, both military and commercial. In-house operation capabilities include design, fabrication, photolithography, coating, and sub-assembly for a one-stop solution.
