# **SUPPLIER QUALITY MANAGEMENT SYSTEM INSPECTION**

The Buyer may inspect the suppliers Quality Management System at the suppliers' facility. The supplier shall provide the time and resources to support the inspection. Inspections assess the buyers' compliance to their quality system in regards to the buyers' Purchase Orders. Inspections may include, but are not limited to, the calibration records of equipment and personnel training records. Where flow down requirements come from an up-tier Buyer, that up-tier Buyer is granted the same access as the Buyer.
